C 3, 4, 6-13 and 68-76 are rejected under 35 USC 103 as being unpatentable over Bruneein view of Araiand combined with Ogawa(057) for the specific reasonsset forth in the previous office action (3-31-05).

Aapplicant has argued that Brunee does not teach a slot has now defined by the amended claims. That is, Brunee does not show a slot defined only by planar opposing surfaces that are parallel to at least one of said thin plate sections. The examiner disagrees noting that the movable section defined by #12 and #13 has a slot defined by the parallel surfaces that are opposite from the sides that screws #29 penetrate. A similar slot is defined in the base #25 between parallel services opposite to the surfaces which are penetrated by screws #29.

Cclaims 14-41 remain allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
